

DEVELOPMENT DIALOGUE MASTERPROGRAMME IN BIOMEDICAL SCIENCES

To guarantee the quality of the programmes at VU University Amsterdam, the programmes are assessed once every six years by a panel of external experts. The final assessment of the programme is conducted by the Dutch Flemish Accreditation Organization (NVAO). In addition to the assessment, the panel of experts conducts a discussion with the programme in which possible developments and improvements are discussed.

The masterprogramme in Biomedical Sciences was reviewed in 2017 and the final assessment is positive. During the development dialogue, the panel discussed with the programme the (joint) final attainment levels of the various Dutch masterprogrammes in Biomedical Sciences. In addition, the panel spoke with the programme about student profiles in the master.
